

# HOW TO DOWNLOAD YOUR VEGIE SMUGGLERS E-BOOKS TO YOUR IPAD...

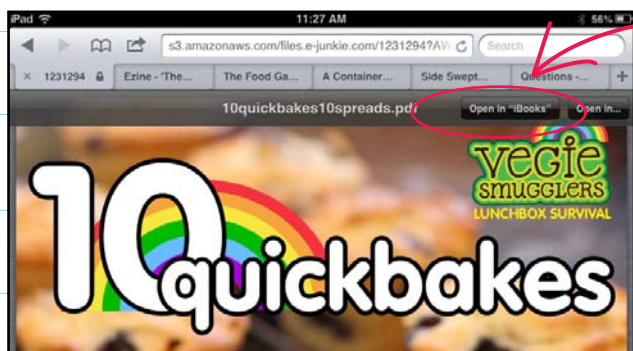

1. Double check that you have the 'iBooks' app installed on your iPad. The file won't download unless it can see one.

2. Click the blue link in your email. This will direct you to where you can download your e-books.

3. This screen is hosted by my e-commerce site, e-junkie. It lists each book you've bought. Each 'click here' link will download a single title.

4. The book will download into your web browser (usually Safari). Tap the top of the screen and an Open in "iBooks" button will appear. Tap this button.

5. The book will open in iBooks and be saved into your library. You may wish to move it into a special collection. Remember to sync your iPad & computer so that you have a backup of your book!

Any further questions, email Wendy at [vegiesmugglers@gmail.com](mailto:vegiesmugglers@gmail.com). Enjoy your books!
